Allowable Subject Matter

1. Claims 1-10, 13, 15-18 and 21 are allowed.
2. The following is an examiner's statement of reasons for allowance: for claim 1, the prior art does not teach a manufacturing method of an endless metal belt wherein a solution heat treatment takes place after a first circumference correction step of expanding a metal ring and before a second circumference correction step of expanding the metal ring, these in combination with the rest of the limitations in the claims. For claims 9 and 17, although many prior arts of record disclose devices for correcting circumferential length of metal rings including a work roller, a tension roller and a rolling roller configured to rotatably sandwich the metal ring between the work roller and the rolling roller, however none of the prior arts teaches the work roller and the rolling roller driven by first and third drivers to rotate synchronously with each other, these in combination with the rest of the limitations in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Essama Omgba whose telephone number is (571) 272-4532. The examiner can normally be reached on M-F 9-6:30, 1st Friday off.
